

Bangladesh: Secondary Education Sector Investment Program - Tranche 1

Project Name	Secondary Education Sector Investment Program - Tranche 1																
Project Number	44213-016																
Country	Bangladesh																
Project Status	Approved																
Project Type / Modality of Assistance	Loan																
Source of Funding / Amount	<table><tr><td colspan="2">Grant: Secondary Education Sector Investment Program - Tranche 1</td></tr><tr><td>Korea International Cooperation Agency</td><td>US\$ 3.50 million</td></tr><tr><td colspan="2">Loan 3047-BAN: Secondary Education Sector Investment Program - Tranche 1</td></tr><tr><td>Asian Development Fund</td><td>US\$ 90.00 million</td></tr><tr><td colspan="2">Loan: Secondary Education Sector Investment Program - Tranche 1</td></tr><tr><td>International Development Association</td><td>US\$ 100.00 million</td></tr><tr><td colspan="2">Loan: Secondary Education Sector Investment Program - Tranche 1</td></tr><tr><td>Export-Import Bank of Korea</td><td>US\$ 39.00 million</td></tr></table>	Grant: Secondary Education Sector Investment Program - Tranche 1		Korea International Cooperation Agency	US\$ 3.50 million	Loan 3047-BAN: Secondary Education Sector Investment Program - Tranche 1		Asian Development Fund	US\$ 90.00 million	Loan: Secondary Education Sector Investment Program - Tranche 1		International Development Association	US\$ 100.00 million	Loan: Secondary Education Sector Investment Program - Tranche 1		Export-Import Bank of Korea	US\$ 39.00 million
Grant: Secondary Education Sector Investment Program - Tranche 1																	
Korea International Cooperation Agency	US\$ 3.50 million																
Loan 3047-BAN: Secondary Education Sector Investment Program - Tranche 1																	
Asian Development Fund	US\$ 90.00 million																
Loan: Secondary Education Sector Investment Program - Tranche 1																	
International Development Association	US\$ 100.00 million																
Loan: Secondary Education Sector Investment Program - Tranche 1																	
Export-Import Bank of Korea	US\$ 39.00 million																
Strategic Agendas	Inclusive economic growth																
Drivers of Change	Governance and capacity development Partnerships																
Sector / Subsector	Education - Education sector development - Secondary - Secondary - social protection initiatives																
Gender Equity and Mainstreaming	Gender equity																
Description	<p>The proposed investment program will support the government's reform of secondary education (grades 6-12) into a system that builds the foundation for a skilled labor force and prepares youths to meet the requirements of a rapidly developing economy. It will support advanced teaching and learning programs that use information and communication technology (ICT), as well as prevocational and vocational programs, teacher development, and examination reforms. It will promote gender-equitable and pro-poor stipends for students. It will help establish more decentralized and efficient allocation and use of resources, as well as strengthen sector performance monitoring. The investment program will build upon the ongoing Secondary Education Sector Development Program and the Second Teaching Quality Improvement Project. It will further benefit from the experience of the Third Primary Education Development Project, which uses disbursement-linked indicators (DLIs). The investment program links disbursement to the achievement of key results. It will further support the transition to a sector-wide approach.</p>																
Project Rationale and Linkage to Country/Regional Strategy	<p>The government acknowledges the need to develop a long-term strategy to meet demand for higher quality and more relevant secondary education. The Ministry of Education (MOE) has developed, with support from the Asian Development Bank (ADB), a NEP implementation strategy for secondary education that draws on extensive stakeholder consultation. It has built upon the NEP implementation strategy to develop a 10-year secondary education sector road map, 2013-2023, which adopts the phased implementation of reforms to modernize curriculum, examinations, and teacher development, as well as to establish and apply common quality standards for secondary schools and teachers. Extensive investment in ICT-based teaching facilities, science laboratories and equipment, other learning materials, and teacher training will support these reforms. The road map further plans to intensify gender-equitable and pro-poor stipend programs using improved methodology. It suggests expanding school infrastructure according to need and recruiting better-qualified teachers with revised selection procedures. Institutional reform to decentralized education management will redefine and strengthen the roles and responsibilities of field offices and school management committees. Extensive capacity development in management at the center and in the field will strengthen performance monitoring and the efficient use of resources. The government projects an additional 3.5 million secondary school students by 2023, to be accommodated by expanding teacher ranks by 145,000 and the number of schools by 10,000. Success in implementing reform will help meet parents' and beneficiaries' aspirations for post-primary education that undergirds a better life and higher income prospects.</p>																

Impact	A more efficient and equitable and higher-quality secondary education system	
Project Outcome		
Description of Outcome	Improved inclusive participation in secondary education	
Progress Toward Outcome		
Implementation Progress		
Description of Project Outputs	Enhanced quality and relevance of secondary education More equitable access and better retention Strengthened secondary education management and governance	
Status of Implementation Progress (Outputs, Activities, and Issues)	All disbursement linked indicators (DLIs) for Years 1 and 2 have been satisfied as shown in the reports on DLI achievement. According to the DLI protocol and the interim financial reports for the corresponding periods, government spending on the SESIP Program Budget Head exceeds ADB contribution for the corresponding period. Maximum amount allocated to Years 1 and 2 has been disbursed. One of the major reforms for the project, decentralization of education management, has been initiated. Donor meetings were initiated which regularly discussed the pathways to sector-wide approach (SWAP).	
Geographical Location		
Safeguard Categories		
Environment		B
Involuntary Resettlement		C
Indigenous Peoples		B
Summary of Environmental and Social Aspects		
Environmental Aspects	The proposed program has been categorized as Category B from an environmental point of view and an IEE, along with EMP, are required to be prepared and disclosed. The assessment will be carried out to ensure that the potential adverse environmental impacts are appropriately addressed in line with ADB s SPS, 2009. This IEE of the program would be prepared to meet the requirements of ADB and DOE for environmental safeguards compliances.	
Involuntary Resettlement	The tranche 1 of the program has been classified as Category C for Involuntary Resettlement. There is neither land acquisition nor displacement of the peoples. Needs of land acquisition and displacement of the peoples for subsequent tranches are unknown. As the specific locations of infrastructure or other project facilities are uncertain at the time of Board approval, this resettlement framework has been prepared to guide subproject selection, screening and categorization, social and assessment, and preparation and implementation of resettlement plans of subprojects, and to facilitate compliance with the requirements specified in the Safeguard Requirements of SPS. The classification is an ongoing process to be confirmed by ADB during the detailed design and implementation.	
Indigenous Peoples	The tranche 1 of the program has been classified as Category B for Indigenous Peoples. The program will develop a project design that prioritizes the small ethnic community (SEC) students and teachers or teachers serving the areas. This prioritization will be supported by extensive consultation with authorities of the respective districts where potentiality of SEC teachers and students are high. This policy will also be supported by a need assessment of the SEC groups, particularly the more vulnerable groups in plain land and in CHT. All SEC students will be included in the program beneficiary groups.	
Stakeholder Communication, Participation, and Consultation		
During Project Design	A large number of consultations, including local levels, were organized to prepare the program. This includes development of implementation strategy of the National Education Policy in secondary education. Stakeholders include policy makers, educational practitioners including teachers and members of school management committee, curriculum developers, etc, and nongovernmental organizations with strong ownership of the government (Ministry of Education and Directorate of Secondary and Higher Education). Consultations with development partners were also organized to develop Sector-Wide Approach (SWAp) Road Map.	
During Project Implementation	The program will work in partnership with multiple stakeholders such as civil society organizations (CSOs), school management committees, and parent-teacher associations. Community participation is vital to the community-based management of schools and the development of pro-poor stipend with appropriate gender targeting. The program will work on institutional reforms in key education institutions. In addition, based on the agreed SWAp Road Map, the program will promote harmonization of other development partners.	
Business Opportunities		

Consulting Services	All consultants will be selected using ADB's Guidelines on the Use of Consultants (2013, as amended from time to time). Consulting firms will be recruited through Quality and Cost-Based Selection and Consultants' Qualification Selection methods and subject to ADB's prior review.
Procurement	The government will carry out all procurement of goods, works, and consulting services. Goods and civil works will be procured in accordance with ADB's Procurement Guidelines (2012, as amended from time to time). Goods and works valued more than \$1 million and \$2 million respectively will be procured using International Competitive Bidding and ADB's standard bidding documents, and subject to prior review. Goods and civil works valued below the respective International Competitive Bidding threshold will be procured using the National Competitive Bidding (NCB), in accordance with the government's Public Procurement Act (2006) and Public Procurement Rules (2008) subject to modifications agreed between the government and ADB as set out in the Facility Administration Manual (FAM) and procurement plan. For efficiency and economy, small civil works can be grouped together into larger bid packages, wherever feasible. Advance contracting and retroactive financing will be considered.

Responsible ADB Officer	Eisuke Tajima
Responsible ADB Department	South Asia Department
Responsible ADB Division	Human and Social Development Division, SARD
Executing Agencies	<i>Ministry of Education Shikkha Bhaban, 16 Abdul Ghani Road Dhaka-1000 Bangladesh</i>
